

The Lorax

By Dr. Seuss

Read The Lorax to the class and analyze it.

Discuss how The Lorax parallels real life issues that occur in the environment.

1. What species became extinct? Why?
2. What else was affected by the loss of the trees? Why and How?
3. Could this story happen in the United States?
4. How might those species be classified if it did?
5. What is the natural resource?
6. What are the waste by products?
7. What actions may have been taken to protect the species portrayed in the story
